### Kool Seal Warranty Types

**Kool Seal Product Warranty:** Kool Seal Product warranties vary in term and can be found on product containers. Product warranties cover manufacturing defects. The warranty covers replacement of Kool Seal products that are proven to be defective.

**Kool Seal Material Only Warranty:** Kool Seal Material Only warranties cover manufacturing defects for Kool Seal materials used within a coating system *when installed according to current Kool Seal installation instructions*. The warranty covers replacement of Kool Seal products proven to be defective. The standard term is for 10 Years.

**Kool Seal System Warranty:** Kool Seal System warranties cover all Kool Seal materials used within a coating system and *when installed to current Kool Seal specifications by a Kool Seal Authorized Contractor*. This warranty covers replacement of Kool Seal materials proven defective as well as the labor cost to install the replacement product. This warranty requires pre-approval from Kool Seal prior to starting the coating system project. Standard terms are 10 or 15 years. Select 20 year terms are available based on Contractor Authorization level and Coating System type. Fees are associated with these warranties and vary based on term and project size.
